

PRODUCT SPECIFICATIONS WOOD PANELS

Add warmth and natural texture to your architectural wall design with Cambio Wood Panels. Wood selection includes slatted or veneer White Oak and Caribbean Walnut, and D3 (made from reclaimed Douglas Fir). Designed to accentuate the beauty of the raw material, Cambio Wood Panels have a less-refined edge. All panels are finished with a commercial-grade, low-VOC waterborne varnish. Available in three different sizes, the panels can be installed vertically or horizontally.
