

African Hardwood - Side Grain

Last Revised 2/21/2019 - A&D

PRODUCT DESCRIPTION

African Hardwood Side Grain tabletops are made from used shipping pallets, diverted from landfills, and offers a 3rd life to this post-industrial waste. Comprised of more than a dozen species of wood from Africa, and other tropical regions, the colors and grain patterns are rich and varied. Colors can range from cream whites, golden yellows, amber, mahogany and various brown tones. Grain can be straight, interlocked and wavy, have high luster, and figure. Reclaimed marks include nail holes, staining and surface checking. Each piece will have its own character.
