

WHITE OAK TABLES + COUNTERS

TABLES + COUNTERS

White Oak Plank (or face grain) table and counter tops are built with parallel strips of wood typically 4" to 6" wide, varying in width depending on top dimension and availability.

White Oak Side Grain tabletops are built with the edge grain of the wood facing up in parallel strips typically measuring between 3/4" and 1-1/4".

White Oak grain texture is medium to course and shows the elegant natural patterns of the wood. Varies from light brown to dark brown with few instances of sap wood with generally straight grain with occasional curls and knots appearing.
