

# WHITE OAK TREADS + LANDINGS

## TREADS + LANDINGS

**White Oak Plank** stair treads and landings are crafted with parallel strips of wood typically 4" to 6" wide, varying in width depending on top dimension and wood availability.

**White Oak Side Grain** treads and landings are crafted with the edge grain of the wood facing up in parallel strips typically measuring between 3/4" and 1-1/4".

White Oak grain texture is medium to course with elegant natural patterns of the wood. Varies from light brown to dark brown with few instances of sap wood. Generally straight grain with occasional curls and knots appearing.
